

## SANDY HEART OF THE WASATCH

### Volunteers Needed for Sandy Pride on May 17

Sandy Pride has been a part of the Sandy community for more than 20 years and is scheduled to take place this year on May 17. This city-wide project has brought together thousands of volunteers working together to make their community an even better place to live. Once again, volunteers are being sought throughout the morning of May 17 to help plant trees, flowers, shrubs and to replace old bark around trees and jungle gyms. Many other projects are taking place throughout the city including general clean-up in open spaces, painting or simple repairs to homes.

Individuals or groups wanting to coordinate any volunteer time can call Angela at 568-7256 or send an e-mail to [asnyder@sandy.utah.gov](mailto:asnyder@sandy.utah.gov). Additional information is available online at [www.sandy.utah.gov/sandypride](http://www.sandy.utah.gov/sandypride).

### Updates on Road Construction

Beginning in March, UDOT is continuing work on State Street to complete the project from 10600 South to 9000 South which began in October 2006. Median work including landscaping and patterned concrete work will begin at 10600 South and work northward. This process is subject to bad weather but should be completed in eight weeks. The contractor will begin grinding asphalt throughout the corridor in the next few months to smooth the road surface. The final asphalt seal coat for State Street pavement is planned for mid-May with final striping to follow.

Work is also beginning on the

intersection of 9000 South and State Street. Work will start on the south-east quadrant and move around the intersection to allow traffic flow through the intersection. UDOT is asking motorists to be cautious while major utility work is taking place in this intersection that will require traffic control. Work at the intersection will be ongoing throughout the spring and early summer.

Please note the reduced speed limit of 30 mph on 9000 South and State Street through the work zone. For safety reasons, left turns are once again prohibited except at major intersections in the areas of the median work.

### Official Start for Slim Down Sandy Program

The Healthy Sandy Partnership is sponsoring Slim Down Sandy, a program to encourage all Sandy residents to lose 10 pounds in 10 weeks. Registration for Slim Down Sandy runs from March 26 to April 5. The first 200 people to sign up will receive a free pedometer. There will be thousands of dollars in prizes for those participants who achieve the 10-pound goal. For more information, visit [www.sandy.utah.gov/slimdown](http://www.sandy.utah.gov/slimdown) or refer to the flyer inserted in the Sandy Journal.

### Residential Dumpster Program

Sandy City residents may schedule a 30-cubic yard dumpster year-round (for up to a 72-hour period) for residential or neighborhood clean up for only \$125. (*Businesses and commercial contractors are excluded from this program*). To reserve a dumpster, contact the Public Works Department at 568-2999.

### Household Hazardous Waste

The Salt Lake Valley Health Department will collect all Household Hazardous Waste on the second Thursday of each month through September at the Sandy City Public Works facility at 8775 South 700 West. Collection dates for 2008 will be: April 10, May 8, June 12, July 10, Aug. 14, and Sept. 11 for 3 hours from 7 a.m. until 10 a.m. Employees from the

Salt Lake Valley Health Department will be available to assist you.

The following items will be accepted: paints, pesticides, oil, transmission fluid, antifreeze, batteries, florescent light tubes and other chemicals. No business waste will be accepted at this event. If you have business waste, call 541-4078 for information about the Small Business Waste Disposal Program.

In addition to the above, Sandy City also has a Household Hazardous Waste collection facility known as an A.B.O.P. This facility will only accept antifreeze, batteries, oil and paint.

If you have items other than those listed in the above paragraph, you would need to take them to the permanent facility at the Trans-Jordan Landfill or wait for the community collection event on the dates listed above. The A.B.O.P. is available daily from 7 a.m. to 4:30 p.m. at Sandy City Public Works.

If you have any questions about the Household Hazardous Waste Program, please contact the Salt Lake Valley Health Department at 313-6697.

### Bulk Waste Collection

Sandy City is conducting its spring bulk waste collection program through June 2. Please place your waste curbside no sooner than 1-2 days before the scheduled collection date.

In addition, we are asking our residents to place all green waste (tree branches, shrubs, etc.) into one pile and all other waste into a separate pile. The green waste will be kept out of the landfill so it can be recycled as wood chips or compost.

If you have any questions about this program, please contact the Public Works Department at 568-2999.
